

HOLLARD STABLE FUND*

*Comprises Blue Ink Vesting Trust No 37, Caveo Stable Portfolio Trust, The Novare Capricorn Hollard Hedge Fund en commandite partnership and Silver Cluster Loan Stock Company (Proprietary) Ltd.

OBJECTIVE

The Hollard Stable Fund is a South African long/short equity hedge fund. The Fund has a strong focus on capital preservation, targeting an absolute return in excess of cash. The conservative, counter-cyclical nature of the fund could result in underperformance during equity bull markets, whilst outperforming in equity bear markets.

MANAGER'S COMMENTS

November delivered excellent returns for the Fund, returning 4.9% whilst the JSE All Share Index was down 3.9% on a total return basis. It was a difficult month for the market as a result of the December US Fed rate hike becoming ever more probable. The divergence within the market has provided an excellent opportunity for our style of investing. We have been fortunate to avoid many of the pitfalls that have been prevalent in a number of stocks this year.

Performance was once again driven by the short side of the book, where seven out of ten of our largest contributors were from shorts. These shorts were in the resource, South African Industrial, construction spaces as well as several stock specific stories that played out in our favour. We continue to position ourselves in shorts where we believe the businesses face significant economic headwinds and are fundamentally challenged.

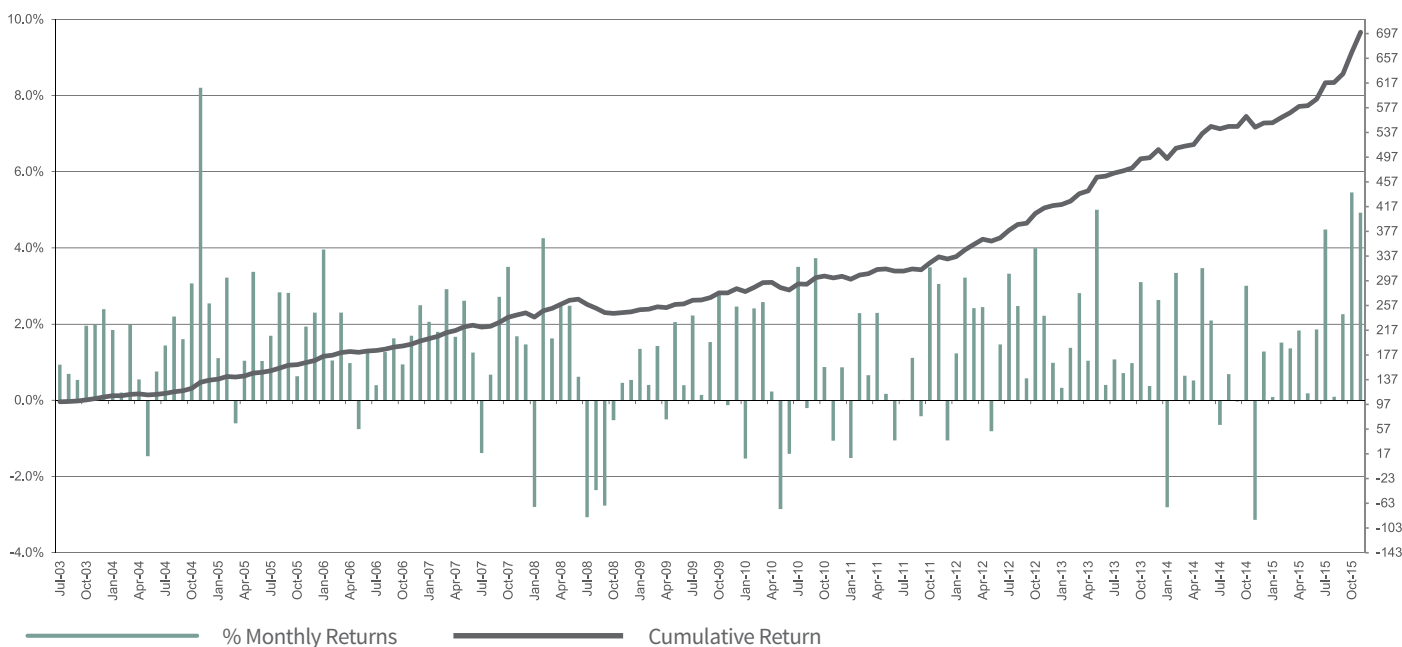

Long performance was driven primarily through Curro Holdings, Naspers and locally-listed offshore property stocks. All these stocks represent businesses that have managed to build their growth trajectory independently of the South African macro-economic environment. We continue to favour these businesses as we remain cautious on the domestic environment.

We would like to take the opportunity to thank our investors for their continued support this year and wish you all a very happy festive period.
